**Re: Notice of Ex Parte Presentation  
PS Docket No 13-87**

Dear Ms. Dortch:

On November 7, 2016, Chuck Powers of Motorola Solutions, Inc. (Motorola Solutions) and I met with Michael Wilhelm, Brian Marengo, and John Evanoff of the Public Safety and Homeland Security Bureau to discuss issues raised in the above-captioned proceeding. Mr. Powers and I discussed the Petition for Partial Reconsideration filed by Motorola Solutions in the above-captioned proceeding on October 31, 2016. We reiterated the argument expressed in the petition that the Commission should take steps to defer the implementation of certain rules before its completes work in this rulemaking. We also discussed the comments filed in this proceeding on October 26, 2016, and reiterated Motorola Solutions' support for the recommendations submitted by the Telecommunications Industry Association concerning CAP Compliance testing methodologies. Finally, we indicated support for the comments submitted by APCO International, Project 25 Compliance Assessment Program Advisory Panel, and the California Governor's Office of Emergency Services that address Motorola Solutions' Petition for Clarification concerning the required availability of the interoperability channels within 700 MHz narrowband radios.

Very truly yours,

**DLA Piper LLP (US)**
